Can also contact at: net at HamOperator dot com		
Hams in the park June 10 Long Lake Park starts at noon		
May 22 net will be devoted to the Dayton experience		
I will have my simplex Wires-X node AB8DT/M Node #30074 Room #40074 on the following frequency and I have listed two alternates just in case. I will let you know if I need to switch to one of the alternates after we get things set up. I will connect into MNWIS and will monitor to make sure conversation is with the group and not simplex chatter. More than likely I will bounce in and out but will play it by ear. AB8DT/M Wires-X Simplex Node: 433.175Mhz Option #2: 433.675Mhz Option #3: 434.125Mhz.
