		Chat log:							
		2018/06/25 20:23:16 W0MDT-DAY > MNWIS-FUSION : VA7REF-RPT is muted due to interference							
		2018/06/25 20:37:02 K7LW-RPT > MNWIS-FUSION : For IMRS DG-ID timeout, and a good explanation of the "Beep" check pg 16 of the DR2X operator manual. Very good explanation of how it works.							
		2018/06/25 20:38:43 K7LW-RPT > MNWIS-FUSION : There are Beep signals that are listed, and it's mainly the 2 beeps that will drive you nuts if you don't set the IMRS TOT correctly. It doesn't matter if you've got your DG-ID set to 00 either.							
		2018/06/25 20:45:50 KB7SQS-GW > MNWIS-FUSION : This guy has been bad mouthing fusion all day long on america link							
		2018/06/25 20:46:44 W0MDT-DAY > MNWIS-FUSION : Copy that.							
		2018/06/25 20:52:51 K7LW-RPT > MNWIS-FUSION : Ignorance is a curable disorder, sometimes it just takes a while...							
		2018/06/25 21:04:54 W2XRX-RPT2 > MNWIS-FUSION : can confirm - pressing * longer than 1 sec on FTM-400 (not in Wires-X mode) brings up something that says Remote and REC/PLY on the display							
		2018/06/25 21:11:20 VE3RIX-RPT > MNWIS-FUSION : Chris the owner of the VA7REF repeater in located in the Vancouver area and Lee VE7LEE runs it out of his home.							
		2018/06/25 21:11:33 VE3RIX-RPT > MNWIS-FUSION : Don VE3IGN 73'							
		2018/06/25 21:13:27 VE3RIX-RPT > MNWIS-FUSION : I will let him know about the tone issue that he needs to enable it on his repeater.							
		2018/06/25 21:15:27 W0MDT-DAY > MNWIS-FUSION : I'll unmute REF after the net. Thanks! de K9EQ
