Chat log:

2018/07/09 19:40:05 N1JUX-ND > MNWIS-FUSION : WORKED W0JW FROM OSWEGO NY 897 MILES ON 6 METERS VIA FT8

2018/07/09 19:47:53 N1JUX-ND > MNWIS-FUSION : USED a Yaesu YA-30 folded terminated dipole. tuned via built in 991A tuner

2018/07/09 19:48:43 N1JUX-ND > MNWIS-FUSION : not at all ideal but it worked on ft8 73 N1JUX

2018/07/09 19:57:16 K7LW-RPT > MNWIS-FUSION : Default remote commands for the DR2X are on page 27 of the user manual

2018/07/09 19:58:59 K7LW-RPT > MNWIS-FUSION : Activate is 1111, and deactivate is 2222. If your analog just put a * in front of it

2018/07/09 20:13:24 K7LW-RPT > MNWIS-FUSION : Virtual Box, free download for LINUX

2018/07/09 20:13:56 K7LW-RPT > MNWIS-FUSION : You'll have to play with the ports to get them to work, but well worth the time,

2018/07/09 20:21:55 K7LW-RPT > MNWIS-FUSION : The DR2X will only do 50% duty cycle at hi power (50w) but unlike the DR1X it will alter the fan speed, and lower power if temp is greater than 140deg

2018/07/09 20:24:45 K7LW-RPT > MNWIS-FUSION : There is also a cooling mod that I would suggest performing for both models as well that will help

2018/07/09 20:49:45 N1JUX-ND > MNWIS-FUSION : I see kfx responding to K9EQ

2018/07/09 20:54:56 N9MR-ND > MNWIS-FUSION : Thanks MN QSO K9EQ on FT8. QSB pretty fierce. 73.

2018/07/09 21:09:02 K7LW-RPT > MNWIS-FUSION : Cooling mod (one of them anyway) is listed on K9EQ-FUSION-PDF--0008 page 6 of 15 on Hamoperator.com :-)
