KM6ARL	Ed	Vista	CA	ACK	Why does it keep beeping while a station is talking? Possible weak signals and short drop-outs. Why do some stations know where every other station is? (I'm seeing his GPS data.) Some nodes have large number of connected nodes, but doesn't hear anything? Won't hear anything if nobody is talking - he isn't missing anything.	KC9ONA-RPT	N8NJ
W0JJK	James	Chaska	MN	N		W8SOX-ND	W2SDL
KC0JZJ	Paul	Winona	MN	ACK	What does WIRES-X button do on HT? Doesn't seem like it's needed. Used to control node, news functions, etc. but normally not needed. Distance does not show up on either radio (FT-991). Coordinates manually entered. 991 firmware up to date? Not certain. KE0BRZ: Make sure firmware is up to date.	N8NJ-LARRY	K3XT

KC9YRR				C			
KQ0RS	Sparky	White Bear Lake	MN	N			
VE3IGN	Don	Gloucester	Canada		FTM-100 dual watch no (FTM-350 was dual receive). Will it simultaneously Rx APRS - not while you are transmitting. There's only one receiver so it has to switch between channels. Best to use the FTM-400 for APRS.
