2016/10/24 21:18:15 N8VTU-NODE > ----MNWIS-FUSION : chk me in as well N8vtu Scott Piqua, Ohio no traffic

1. When accessing a dual mode repeater Do not start in the wires x mode... You might step on an analog conversation.

If you are in WIRES X mode you will not hear an active FM signal...

2. Always operate in the over score FM mode or the Over score DN mode... Your radio will switch automatically to either mode

3. When accessing a Wires X node that you want to move to another room Always ask the Owner for permission

It is just plain courtesy...

4. When using a repeater that is WIRES x enabled and connected to a room Identify yourself By voice and ask for permission before sending any

Wires commands i.e. disconnecting from a room, moving to another room, etc.

5. When leaving an unattended repeater put the repeater back to the condition you found it in... (Back in the room you found it)

6. Above all if you want to move someone else's repeater or node be courteous and ask... If no one is there to answer your questions

There is always the internet and email... Most trustee's will answer your email in a timely manner...

7. Please remember that setting up a node is a major expenditure for most of us... Please treat all node owners with respect?

After all you are a guest of that station owner...
