167		K9EQ				T	RTSystems FT-991 software update: They now ship a 991/991A product where you selected which one when installed - and the software was then permanently branded for that model. If you bought the 991-only version 11/1/16 or later, you get a free update - call them. Otherwise it's a \$10 update. BTW, there is very little difference in the radios from the software's view. Seems a little cheap of them to me (K9EQ)
