			2018/07/16 19:12:55 KI7VLP-ND > MNWIS-FUSION : HELLO JUST SEEING WHAT THIS DOES.							
			2018/07/16 21:16:36 K7LW-RPT > MNWIS-FUSION : Had the same problem here with buffering between my digital machine and a local analog wiresX node. Turn out to be in part, that his machine wasn't up to date with the latest Windows updates.							
			2018/07/16 21:17:35 K7LW-RPT > MNWIS-FUSION : Loaded those up, and it helped. Also updated the firmware in the node radios, and the HRI 200 on his end, (mine was up to date) that cured the excessive buffering.							
			2018/07/16 21:38:23 K7JRP-ND > MNWIS-FUSION : K7JRP, Minot, ND- Checking in, no traffic. One for the numbers please.
